#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Invention I: (Claims 1, 15-28, 73-91) are drawn to a method comprising specifying underwriting standards for a class of financial instrument, classified in class 705, subclass 35.

Invention II: (Claims 2-14, 59-72) are drawn to a method comprising rating agencies attributing to an originator of financial instruments a moral recourse obligation to support the financial instrument, the financial instrument being offered by a financing organization being chartered for the purpose of offering the financial instruments in the financial markets, classified in class 705, subclass 35.

Invention III: (Claims 29-58) are drawn to a method comprising aggregating and offering financial instruments for sale in the financial market, the financial instrument having been originated by a plurality of primary originators, classified in class 705, subclass 35.

Invention IV: (Claims 92-97) are drawn to a method comprising purchasing financial instruments from plurality of originators of financial instruments, a financial organization purchasing the financial instruments receiving a cash payment from either a manufacturer of goods financed by the financial instruments or from originators, classified in class 705, subclass 35.

The inventions are distinct, each from the other because of the following reasons:

Inventions (I)- (IV) are related as subcombinations disclosed as usable together in a

Art Unit: 3691

single combination. The subcombinations are distinct from each other if they are shown to be separately usable. These combinations are independent if it can be shown that (1) they are not disclosed as capable of use together, (2) they have different modes of operation, (3) they have different functions, or (4) they have different effects. (MPEP 806.04, MPEP 808.01). In the instant case, the different inventions have different modes of operation and different functions/effects.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103 (a) of the other invention.

A telephone call attempt was made on February 20, 2007, to request an oral election to the above restriction requirement, but did not result in an election being made.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Olabode Akintola whose telephone number is 571-272-3629. The examiner can normally be reached on M-F 8:30AM -5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alexander Kalinowski can be reached on 571-272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
